Cool Control 0.6 l – Optimally chilled for the perfect beverage

Niederbuchsiten, ## – **With the technically and visually upgraded Cool Control, there's now an even better way to enjoy the latest speciality coffees with milk and milk foam. Not only does it deliver on great-tasting coffee, it's also a beautiful piece of design. Popular specialities are ideally prepared using milk cooled to 4°C and the highest standard of hygiene. With its elegant design, robust materials, high-quality aluminium details and optimum convenience, Cool Control is the ultimate accessory for any automatic coffee machine.**

Ideal use of space

The elegant design of Cool Control means it can be used in locations where space is limited. With its streamlined design, this innovative milk cooler will easily fit into any corner of the kitchen.

Elegant design

Cool Control reflects the classic JURA look. Premium materials, a cover made of high-quality 1.5 mm thick stainless steel and elegant ventilation slots accentuate its design. With its clean, minimalist lines, the Cool Control 0.6 l is the perfect accessory for any JURA coffee machine.

Ideal addition to JURA automatic coffee machines

Wireless* communication between Cool Control and the automatic coffee machine, as well as the integrated level indicator, ensure that the user is always aware when the cooler needs to be topped up with milk.

*When used with Wi-Fi Connect (optionally available), Cool Control is compatible with all JURA coffee machines equipped with Wi-Fi Connect. When used with the Wireless Transmitter (optionally available), Cool Control is compatible with all JURA coffee machines equipped with Smart Connect.

Maximum convenience

Cool Control provides the perfect starting point to successfully prepare trend specialities made with milk. The Peltier cooling element keeps the milk at a temperature of 4°C to ensure the perfect milk foam is created. Proof of the perfect temperature is not only seen in the fine-pored milk foam, but also shown on the digital display. The milk cooler is also easy to use, with no need to remove the milk container to refill it. The stainless steel milk container, metal tube and adapter are also dishwasher-safe for easy cleaning.

JURA Elektroapparate AG, founded in 1931 and based in Niederbuchsiten, Switzerland, is the innovation leader in automatic speciality coffee machines. The company's products stand for the perfect coffee result from fresh beans, always freshly ground and extracted at the touch of a button. The product range includes both machines for domestic use and professional models. In recent years, the long-established Swiss brand has grown to become a global player, operating in around 50 countries.
