JURA Professional

With permanent water connection: The X4c is ideal for open-plan offices and self-service areas

Niederbuchsiten, 18 March 2025 – **The X4c combines proven quality with the added convenience of a permanent water connection. The professional, fully automatic Pure Coffee machine is ideal for open-plan offices and self-service areas with a daily requirement of 100 coffee preparations.**

From espresso to americano, the X4c expertly prepares a clear and high-quality selection of black speciality coffees. Equipped with a Professional Aroma Grinder (P.A.G.2) and various brewing processes such as the Pulse Extraction Process (P.E.P.®) and the One-Touch Lungo function, it gives every speciality its characteristic aroma profile.

The X4c features a user-centred concept and sophisticated functionality. By combining it with Business Connect, operators have the option of using Pocket Pilot 3.0. This free app from JURA is a payment, billing and management system in one and utilises the coffee machine's telemetry data in real time. The X4c also supports the MDB standard, facilitating flexible payment connections. The professional coffee machine boasts ergonomically designed components and a lockable bean container and water tank.

The X4c is ideal for use in open-plan offices and self-service areas with a daily requirement of 100 coffee preparations. The permanent water connection offers the convenience of a constant supply of fresh water. Thanks to a flexible connection solution, the X4c can be easily disconnected from the water connection, making it ideal for occasional stand-alone use.

Main features

- Professional Aroma Grinder (P.A.G.2) for consistent grinding results and longer service life thanks to the rest mode function
- 3.5-inch display and six one-touch buttons for an optimal user experience
- Permanent water connection for time-efficient operation and uninterrupted service
- Enables connection to a payment system with an MDB Connect *
- The free Pocket Pilot 3.0 software is available for use with a Business Connect *

* available as an accessory

Pocket Pilot 3.0

With Pocket Pilot 3.0, JURA is setting a new standard for payment, billing and the management of professional fully automatic coffee machines. The free web application uses the telemetry data of the X4c in real time to offer an optimal user experience. Thanks to its different modes, Pocket Pilot 3.0 is suitable for every business and area of use.

Advantages at a glance

- Central monitoring and management thanks to real-time telemetry
- Mobile payment
- Pocket Pilot 3.0 does not require any external hardware

- When used in conjunction with an optional Business Connect, the X4c is compatible with Pocket Pilot 3.0 and telemetry data can be used in real time.
- The lockable bean container and water tank ensure safe, hygienic handling.
- Enjoy the Pure Coffee experience with the X4c.
- The permanent water connection offers the convenience of a constant supply.

JURA Elektroapparate AG, founded in 1931 and based in Niederbuchsiten, Switzerland, is the innovation leader in automatic speciality coffee machines. JURA products represent the perfect cup of coffee, made at the touch of a button from fresh coffee beans that are always “freshly ground, not capsuled”. The product range includes both coffee machines for domestic use and professional models. In recent years, the long-established Swiss brand has grown to become a global player, operating in around 50 countries.
